RE: Proserve

At the mount Nursing home we pride ourselves in building strong relationships with other local business'.

When we found ourselves facing the problem of recovering costs from families who had placed their relatives in our care after they deceased, it left us being led round in circles trying to recover outstanding debt.

We had no other choice to contact an outside agency to assist us. Pro-Serve came highly recommended. Working with Pro-Serve, Mike in particular, has been a huge success. We find the company prompt and professional. You are kept up to date on each individual case every step of the way. After such a success we would not hesitate in using their services again.
